Sheep #0

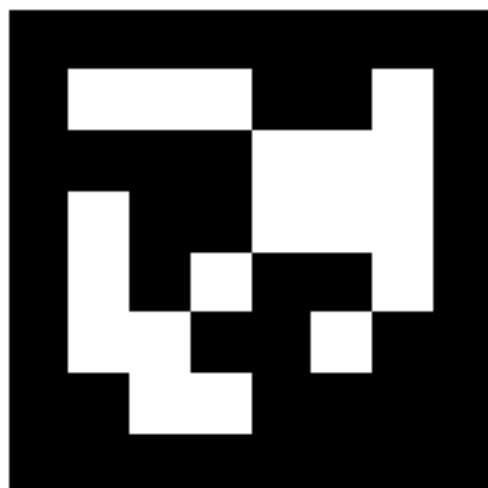

Sheep #1

A 10x10 pixel grayscale image of a sheep, labeled 'Sheep #1'. The image is mostly black with a white, pixelated shape in the center representing the sheep's body. The shape is composed of several connected pixels, forming a stylized, blocky representation of a sheep's head and neck. The background is solid black.

Sheep #2

A 10x10 pixel grayscale image of a sheep, labeled 'Sheep #2'. The sheep is white with a black outline and is positioned in the center of the frame. The image is a low-resolution, pixelated representation of a sheep, likely generated by a neural network. The sheep is facing forward, with its head at the top and its body below. The background is black.

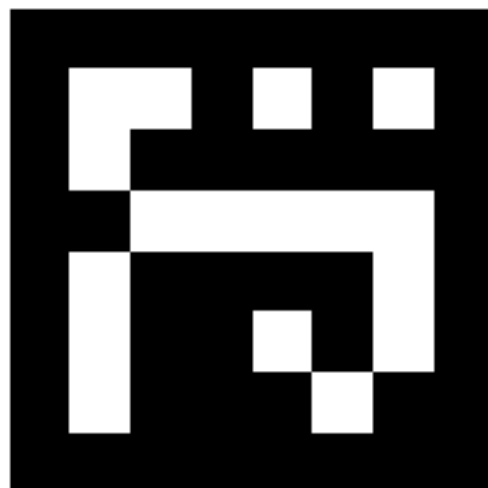

Sheep #3

A 10x10 pixel grayscale image of a sheep, labeled 'Sheep #3'. The image is highly pixelated, showing a black and white pattern that resembles a sheep's head and body. The sheep is facing right, with its head in the upper right quadrant and its body extending towards the lower left. The background is black, and the sheep's body is represented by white and gray pixels.
